

Patients Pain Evaluation

Patients Name: _____ Date: _____

1) Please use the following symbols on the diagrams below:

Pain = -

Numbness = 0

Tingling = +

Pain – If you are experiencing pain use a “-” symbol where the pain is occurring in the body diagrams below.

Numbness – If you are experiencing numbness related to your injury, please use a “0” where the numbness is occurring. For example If you have a shoulder injury, and you are experiencing numbness in your fingers, please use the “0” symbol to indicate this.

Tingling – If you are experiencing tingling, in or around the injured area, please use a “+” symbol where the tingling is occurring.
